

UNIGEL™ approach

A fixed-dose combination therapy as an approach to reduce the burden of certain chronic diseases allowing patients to achieve adherence to different treatments versus those received conventionally (**taking drugs separately**).

The CHALLENGE

To combine different active ingredients in a single capsule to avoid physico-chemical incompatibilities and maintain the biopharmaceutical and pharmacokinetic properties of each of its components, simplifying treatments and achieving accessibility to different patients.

The solution is
unigel™
by Procaps

UNIGEL™ is the only oral solid dosage form in the market that includes a softgel.

Proprietary technology by Procaps available to customize products in a unique way and offer exclusive combinations for patients & consumers. Unigel™ US Patent No. 8,967,989B2 is also patented in Colombia, The European Union, Japan and Korea.

Opportunities

-  Different **Release Profiles available**
-  Permits **the combination of different API's** that are normally not compatible
-  Combines multiple purpose ingredients **in one form**
-  Different Gelatin Formulations/**Suitable for vegetarian and/or Vegan diets**
-  Diversifies Portfolio/**Enables Brand Differentiation**
-  **Improves Patient/Consumers** convenience and compliance
-  **Clear look inside** the capsule/**Physically Appealing**

Whether you're looking to **formulate new products** or **enhance an existing line**, UnigelTM has the right combination to help you bring **improved pharma products to market faster**.
